

Windows Web Hosting Service

Last Updated Sunday, 18 May 2008

If you require the programming capabilities of Windows 2003 for your web hosting, we have a plan to suit. Our Windows web hosting plans support ASP & ASP.NET, and all plans from our WIN02-Windows 2000 and higher plan include the ability to host more than one domain name. All of our windows web hosting plans include the following features as STANDARD:

- Multiple domain hosting capabilities - If you have more than one domain name, you can host them all under the one plan. A certain no. of additional domains are FREE with our WIN02 - Windows 2000 & higher plans.
- FREE sub-domains included with every plan.
- FREE domain parking (forwarding) included with every plan.
- Email aliases and re-directs.
- FREE email auto-responders.
- SMTP email service.
- FREE email anti-virus installed on all server
- Support for the following databases:
- Access/ODBC
- MSSQL (Available as add-on)
- The following programming features:
- ASP
- ASP.NET
- PHP
- SSL Capable
- Helm Control Panel

Traffic Statistics Dont be fooled. Dollar for dollar, feature for feature, our windows web hosting service beats our competitors hands down. Our Windows web hosting plans start from only \$20.00 per month. See the features of our windows web hosting plans below, or view our FAQ's page for frequently asked questions about these plans : All pricing of our web hosting plans are in Australian dollars and include GST.
