

Ecommerce Web Hosting

Last Updated Sunday, 18 May 2008

Much more than just a web hosting plan. Our ecommerce web hosting includes an incredible array of features included at no extra cost to allow any business or individual to build a feature rich and powerful database driven ecommerce web site at minimum cost. Using the included Site Builder Pro with 'The Works' software, within just a few days even a complete novice can build a powerful database driven web site with a shopping cart. When used in combination with the other included tools such as the Newsletter campaign manager, Event Calender, Faq manager, Blog manager, & Secure login manager, you can turn any web site into an easy to administer yet powerful profit making ecommerce portal. No other web hosting plan provides you with such an incredible array of features, so essential for the success of an online ecommerce web site. In addition to the site builder software included, we also include an incredible array of other scripts. There is no need to be a programming guru or to hire an expert to install and configure scripts and setup databases. The powerful Fantastico scripts auto-installer included with your web hosting plan does it all for you with just a few clicks of your mouse. Just some of the features included for no extra cost are:

- Our powerful but easy to use 'The Works' site builder program >> more
- An incredible array of scripts that can be installed with just a few clicks of your mose through our user friendly control panel >> more
- FREE sub-domains included with every plan.
- FREE domain aliases (parked domains) included with every plan.
- Unlimited email aliases and re-directs.
- email auto-responders.
- SPAM Assasin spam filter.
- Cron Jobs.
- MySQL databases.
- The following programming features:
 - PHP.
 - Perl.
 - SSI (Server Side Includes). (additional Extra)
 - Private CGI Bin.
 - CPanel Control Panel.
 - Flash video tutorials.
 - Comprehensive Traffic Statistics.
- Generous disk space and bandwidth allocations! 128 bit SSL Data Encryption Capabilities Our Ecommerce plans include FREE usage of our shared 128 bit ssl certificate for collecting sensitive customer data or credit card details in an SSL 128 bit encrypted environment, OR a FREE dedicated ip address (available with purchase of SSL certificate). 128 bit SSL certificates are available from just AU \$165.00 per year and include free installation. All our plans are 128 bit SSL capable. Payment Gateway API's Our servers are also capable of supporting the vast majority of payment gateway API's required for processing credit cards through Australian banks** (**An additional monthly fee may be required to install and support additional components on the server. Contact us for details). We provide an all in one solution so that you can concentrate on managing your business while we concentrate on managing your web hosting needs! State Of The Art Technology Of course all of the above features are of no use if your web site is unavailable due to traffic congestion, an overloaded web server, or constant down time. Which is why your web site will be hosted on one of our state of the art dual Intel Xeon 3.06 GHz or Dual AMD Opteron web servers with Raid hard drive arrays at world class tier one data facilities. All pricing of our web hosting plans are in Australian dollars and include GST. Services
